To Install Electric Power.

We have it upon reliable authority that the recent visit of Mr. Broili, superintendent of the Truckee Electric Light company. In conversation with that company. In conversation with a Record reporter Mr. Broili said he was surprised at the natural advantages of our valley and although he would not admit that his visit was an official one, the impression he gave out would lead one to believe such was the case. A. Jensen and George J. Brown, of this town, consulted Mr. Broili and obtained valuable information regarding the cost etc., of installing an electric light system for this valley. The obstacles to overcome are not many, and the outlay of money required is not great. Messrs. Jensen and Brown are enterprising citizens and since they have taken hold of the problem it is more than probable that the plan will be carried out.

This will be good news to our community, as it will insure cheap power and cause capital to invest in some of our low grade mines.

The gentlemen will interview the citizens of Gardnerville in the near future, and they will certainly meet with encouragement.—Record.

A Natural Curiosity.
